

2017 Sponsorship Information

Southwest DFT Conference Austin, Texas

(May 3rd - 4th, 2017)

Event Description

The 14th Annual SWDFT is a 2 day DFT and Test conference held in Austin Texas. This conference is totally FREE for attendees. The first day is a tutorial. The second day, which is the main conference day, will be a mix of invited speakers who are experts on DFT and Test related technical topics and will be held at the 4-Star Crowne Plaza Hotel (I35 & 290).

The Key Note Speaker on May 4th should be finalized very soon.

Last year we received great feedback from vendors and attendees alike. Some companies that attended last year: **Advantest, AMD, ARM, Applied Materials, Artisan, ASSET-Intertech, Cadence, Cisco, Cirrus, Calxeda, Conexant, DASI, Dell, Freescale, Flextronics, Goepel, IBM, Intel, ISE Labs, JTAG Technologies, Marvel, Maxim, Mentor Graphics, National Instruments, Optimal Plus, Oracle, Qualcomm, SiliconAid, SMSC, STATS, Synopsys, Teradyne, Texas Instruments, University of Texas, Vitesse, and many more.....**

We believe we are still the second largest DFT/Test conference in the US.

We expect that this year's event will be even bigger and better than previous years. We have assembled our 10 member conference committee to help organize and guarantee this event will grow. Our attendance goal this year is > 200 registrants. SiliconAid Solutions will be providing a free buffet lunch on site at the hotel. **Austin is always a great place for visitors and is a popular location for traveling engineers!** Especially during Cinco De Mayo week!

You can see the last eight year's event on our web site with pics and agendas at:
www.swdft.com
